

*Installation shown is achieved with Acousticord on the wall and Tretford on the floor. Colors available for this type of wall to floor installation are marked with an asterisk on the inside of this card.

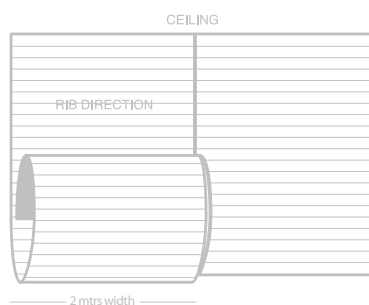

Tretford Acousticord, with its original ribbed texture, is a contemporary European surface that creates an architectural look in any commercial space. Acousticord is engineered specifically for walls.

In a blend of natural fibers and nylon, Acousticord has the inviting tactile aesthetics of wool. Its principal component, goat hair (80%), is a by-product of goat farming for the cashmere industry. The goat hair represents pre-consumer content as the hair would normally be discarded, being too coarse to be used for cashmere cloth. The hair is incredibly durable and hard wearing, yet feels surprisingly soft to touch and is inherently anti-static. The backing for Acousticord is jute, which is a renewable resource and is used un-dyed.

Horizontal rib installation

Fig. 1

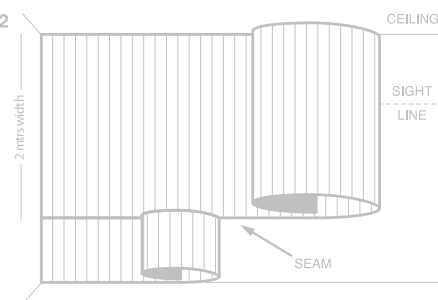

Installing Acousticord on walls with ribs running horizontally reduces installation time and labor.

Material installed with horizontal rib cannot turn outside 90° corners. Specify brushed aluminum 5 mm outside corner turn trim. Optional 5 mm J cap trim may be used in certain applications.

Vertical rib / railroaded installation

Fig. 2

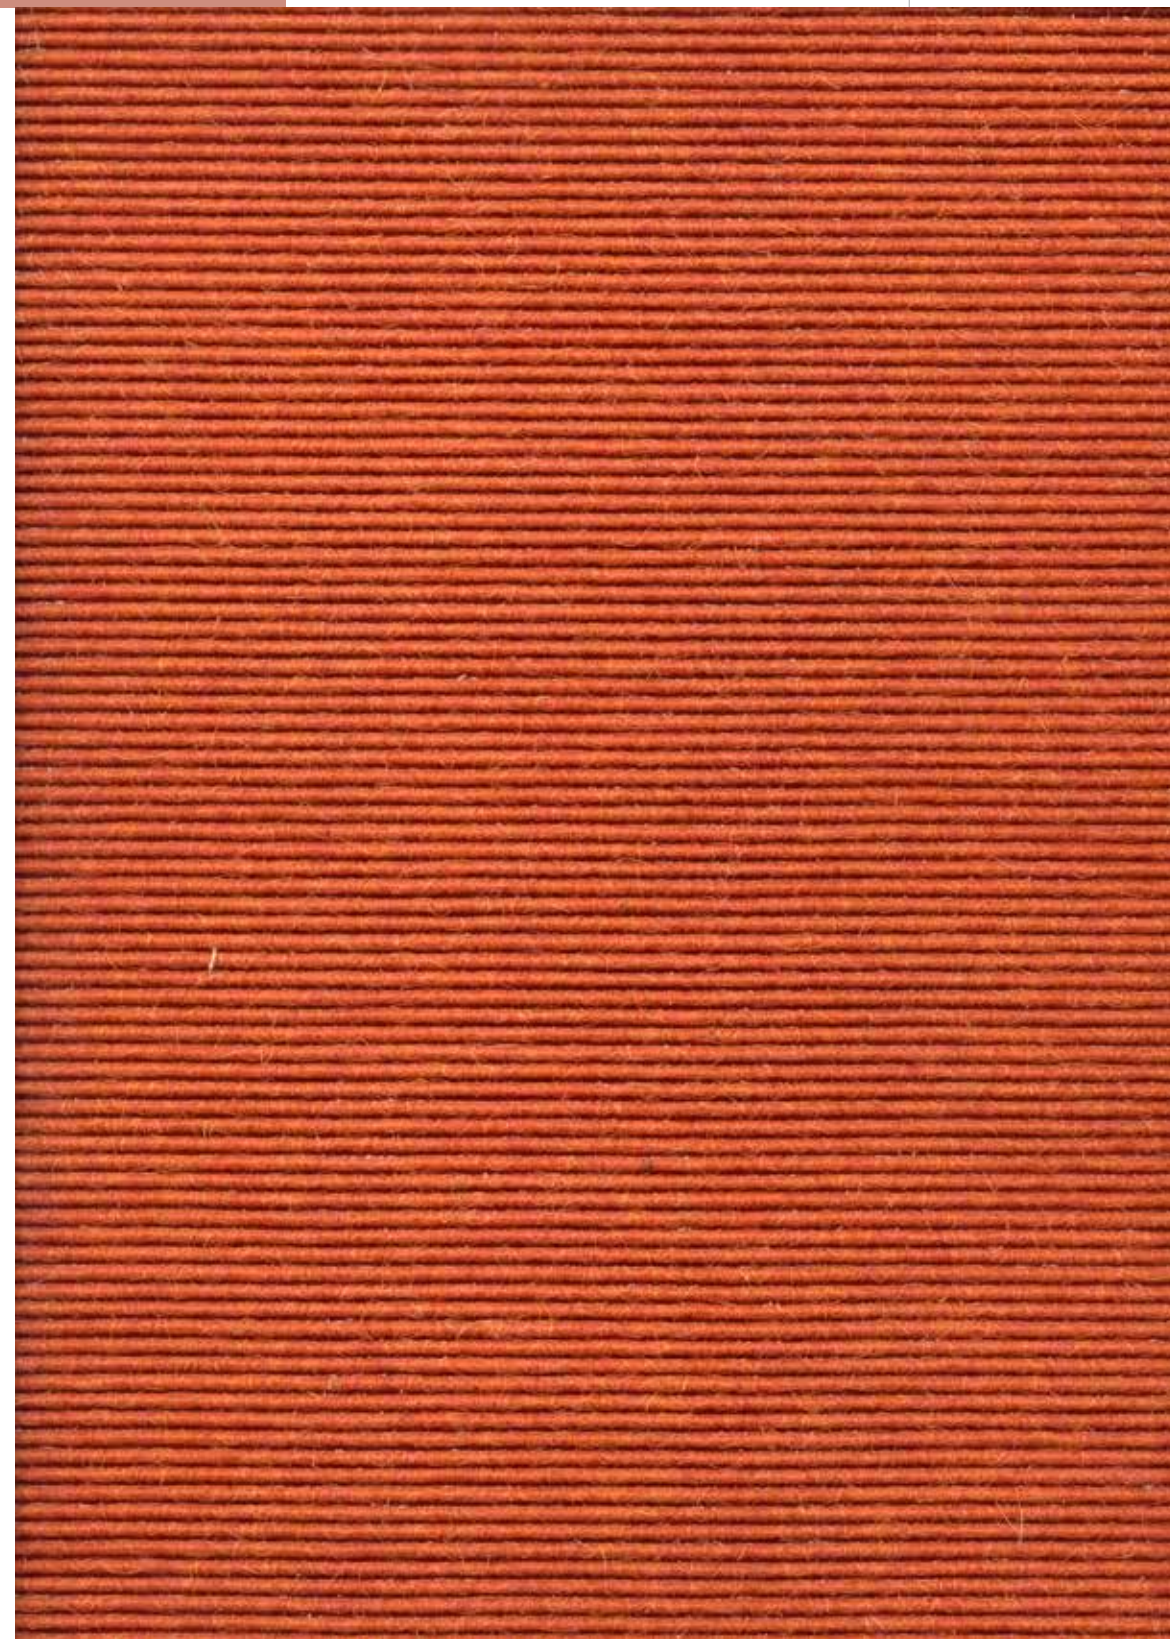

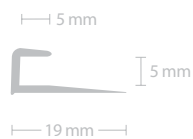

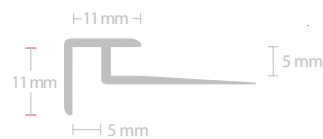

Material installed railroaded with vertical rib can make 90° turns. Optional to specify brushed aluminum 5 mm J cap trim for certain applications.

Brushed Aluminum Metal Trim (optional)

5 mm Outside Corner Turn Trim
SPECIFY
ACS-10316OCT-9 for 2.75 m length

5 mm J Cap Trim
SPECIFY
ACS-10316J-9 for 2.75 m length

FEELER SAMPLE

ACOUSTIC WALLCOVERING

WEIGHT 2 kg/sq m

WIDTH 2 m

ROLL LENGTH 50 sq m approximate, approximately 100 kg per roll

FIBER 80% goat hair, 15% nylon, 5% viscose

RAPIDLY RENEWABLE MATERIALS Goat hair

BACKING 100% natural hessian (jute) fusion bonded with polyvinyl chloride

THICKNESS 5 mm

FIRE TEST Class A

COLORFASTNESS Class 5

SOUND ABSORPTION NRC 0.15

LOW-VOC ADHESIVE Sold with each order

METAL TRIM Available through distributor (optional)

SPECIAL NOTE Specify horizontal or vertical rib installation
